

## About me

---

- ★ I am MERN stack developer skilled in developing amazing web applications using React.js and Next.js. Having mastered in responsive design. also Having a demonstrable experience in creating user-oriented interfaces, I am determined to improve the brand image and the level of engagement through innovative design ideas.

## Education

---

### Uka Tarsadia University 2021-2025

Bachelor of Technology (B. Tech) in Information Technology

2021-2025

Gujarat, India

- ★ CGPA : 8.71 (till 5th sem)

## Technical Skills

---

- ★ **Languages:** HTML/CSS, Javascript, Python
- ★ **Technologies/Frameworks/Libraries:** Git/GitHub, Tailwind CSS, React.js, Next.js, Appwrite, Mongo DB
- ★ **Familiar With:** Figma, Firebase, Dart, Flutter

## Project Experience

---

### No Code - Web Builder | Next.js, Mongo DB, Typescript, Zustand, Cloudinary and Tailwind CSS | Individual | [Link](#)

- ★ Developing a no-code website builder aimed at empowering small business owners, particularly those in the retail sector, to establish an online presence effortlessly.
- ★ The platform allows users to select from a variety of website templates and customize them according to their preferences without any coding knowledge.
- ★ Users can adjust various aspects of the template, including font styles, text colors, font sizes, images, and more, to create a personalized website for their business.

### Jewelry Website | Next.js, SCSS | Individual | Freelancing | [Link](#)

- ★ Developed an entire frontend for Stunning NYC, a jewelry website created to display beautiful jewelry collections to possible buyers.
- ★ The project involved applying responsive web design principles to guarantee excellent viewing experiences across multiple devices.
- ★ Next.js was used for efficient server-side rendering and SCSS for easy yet customizable styling, following industrial coding standards to preserve code quality and scalability.

### Medley Healthcare Website | Next.js, SCSS | Individual | Freelancing | [Link](#)

- ★ Developed an entire frontend for Medley Healthcare, a healthcare solutions provider, using Next.js and SCSS.
- ★ The website serves as a platform for Medley Healthcare to showcase its services, products, and solutions to clients in the healthcare industry.
- ★ Created a visually appealing and user-friendly interface that reflects the professionalism and expertise of Medley Healthcare.

### Personal Portfolio | Next.js, Tailwind CSS | Individual | [Link](#)

- ★ Developed a website using the Next.js framework to showcase my skills, projects, and accomplishments in an eye-catching and dynamic way.
- ★ The site incorporates animations built with Framer Motion to engage visitors and create a memorable browsing experience.
- ★ Also included a dark mode option to accommodate different user preferences and enhance accessibility. This allows people visiting my portfolio to learn more about me and my work through an interactive showcase tailored to their needs.

### Trello Clone | Next.js, Appwrite, Typescript, Zustand and Tailwind CSS | Individual | [Link](#)

- ★ Built a Trello-inspired application from the ground up using state-of-the-art technology and techniques.
- ★ This project replicated Trello's core functionalities like drag-and-drop task management across 3 boards: Todo, In Progress, and Done.
- ★ Implemented functionality for users to easily add images to task descriptions, to enhance understanding and visualization and also obtained 98% responsiveness across devices and screens.

## Achievements

---

- ★ Participated in state level Hackathon arranged by SSIP-Gujarat.
